SECTION IV. Developmental Accomplishments

A. For Home and Community Based Programs

Identification of Three Top Accomplishments		
1	Type of Development:	1,2
<p>While the number of people served through many of our Older Americans Act programs continues to climb, the SUA and the AAAs are interested in better illustrating the real health impact and financial value of the core programs we oversee. In spring 2016, the five AAAs came together with DAIL to develop statewide program performance measures for home delivered meals to help us to better measure success, improve performance, and ultimately increase quality of life for vulnerable older Vermonters. With this collaborative effort successful for the meal program, the group came together again in the fall of 2016 and developed statewide measures for case management services. Caregiver Support is the next program area of focus, and the group hopes to have statewide measures developed by summer 2017.</p>		
2	Type of Development:	2
<p>With limited funding, an aging population and growing need, we anticipate that some AAAs will need to institute a waiting list in the near future. In preparation, the AAAs have worked closely with SUA staff to develop a nutritional risk screening tool within the home-delivered meals intake form. This will allow the agencies to prioritize meals for those at highest risk of food insecurity and malnutrition if a waiting list is instituted. Southwestern Vermont Council on Aging piloted the screening tool in 2016, and all five agencies now use it.</p>		
3	Type of Development:	1
<p>An important role of the State Unit on Aging is to work with key stakeholders to spread awareness about the spectrum of aging and the importance of the Older Americans Act programs in helping Vermonters age with health, independence and dignity. To do this, in February 2016, SUA staff and our AAA partners participated in an Elder Awareness Day at the Vermont Statehouse, particularly as an opportunity to educate and inform members of the House Committee on Human Services. SUA staff provided coordination support that led to testimony by experts in the field of the demographics of aging as well as older Vermonters who were mature workers, family caregivers of those receiving long-term care in their homes, and community leaders in the drive to create age-friendly communities. The day sparked great questions and passionate discussion about many facets of aging. The SUA hopes to participate in another Elder Awareness Day in coming legislative sessions.</p>

SECTION IV. Developmental Accomplishments

B. For A System of Elder Rights

Identification of Three Top Accomplishments		
1	Type of Development:	2
1		2
<p>A number of Vermont's AAAs were involved in the lawsuit against DAIL Adult Protective Services, which has resulted in APS successfully completing the settlement agreement, showing marked improvements across the full spectrum of programs, as determined by an external file review. The external review process was so beneficial that APS has continued the practice post settlement, which has further enhanced performance. Vermont's APS program is the only one in the nation to conduct voluntary external reviews.</p>		
2		1
<p>The State Unit on Aging worked closely with a number of AAAs to do public awareness around World Elder Abuse Awareness Day on June 15th, including encouraging the AAAs to enhance local and regional partnerships and coalition building to prevent all types of elder abuse.</p>		
3		2,3
<p>Mental health has become an issue of growing concern in our aging network as providers see more and more elders in need of mental health services but few services accessible to vulnerable elders. The SUA worked hard in 2016 to increase coordination of efforts between AAAs and the designated mental health agencies to improve access to mental health services and maximize limited resources. This effort is closely connected to DAIL's focus on improving coordinated efforts around elders and substance abuse to increase awareness of elder substance misuse and abuse, increase screenings and referrals across all care settings, and increase availability of in-patient and outpatient treatments appropriate for older adults.</p>
