What is Flexible Choices?

Flexible Choices is an option under Choices for Care/ Long-Term Care Medicaid which allows you, a family member, or someone you trust to manage your Choices for Care services at home within a state approved allowance

Flexible Choices is designed to give you more flexibility and options in how you use your funding.

The level of flexibility depends on your specific needs. Transition II will work with you to determine a budget and a plan to meet those needs within your approved budget.

Who Qualifies for Flexible Choices?

A potential participant must either be on Long-Term Care Medicaid (Choices for Care) or meet the Choices for Care eligibility requirements.

Choices for Care offers a choice of setting for where you want to receive your long-term care services. Flexible Choices is a home based option allowing you to receive your services at home.

What Makes Flexible Choices Different?

Flexible Choices works a little differently than the Traditional Choices for Care home-based services in the following ways:

- ◆ You and your advisor will develop a budget to reflect your specific needs and design a plan to achieve your goals.
- ◆ You can change your budget as your needs change.
- ◆ You may have more flexibility around your Case Management Services.
- ◆ You may be able to save unused funding toward targeted needs that will help increase your health, safety, and independence.
- ◆ Allowable items are based upon your individual needs and goals within program limits.
